How to refill meds (non-stimulants/controlled substances):

- Go to meds
- Click Manage
- It'll look like this
- Select the meds you want to refill
- 
- Click Instant Renewal
- Done, you can X out of this window top right, it'll say are you sure you want to exit with meds pending, say yes.

How to refill meds (stimulants/controlled substances):

- Go to meds
- Click Manage

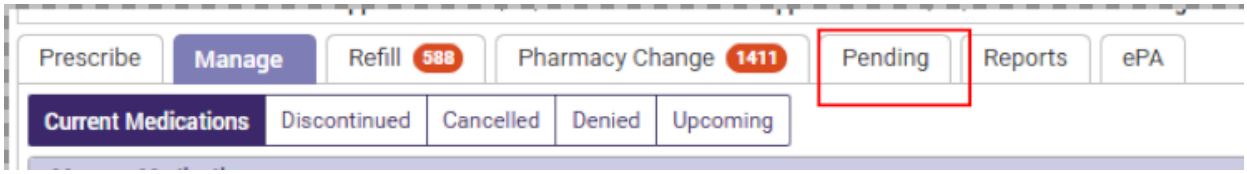
- [redacted]
- Same thing, select the meds you want to refill, then hit **instant renewal**
- [redacted]
- Now you'll have to hit prescribe, on top left
- [redacted]
- Now you will fill the "Do Not Fill Until" date

- This will be **1 month forward, and 2 days back from the date that the patient last filled the medication**
    - You will ask about this during the patient interview
    - So if the patient last filled their amphetamine on 4/20/26,
    - The next Do Not Fill Until dates will be 5/18/26, 6/16/26, 7/14/26
    - Remember, 1 month forwards, 2 days back.

Misc info

This is the pharmacy button.

Most of the time, existing patients will already have a preferred pharmacy, but if not, this is what you'd click to enter the pharmacy info.

If you need to prescribe new meds, you would do so from the Prescribe tab.


To check if you've pended the order correctly, you can check the **Pending tab.**
